GYS POT ARCPULL 200

Ref. 057470

GYS POT ARCPULL 200 is a drawn arc welding product developed specially for carbody thin sheets. Its innovative gun is equipped with a high precision linear motor with digital control, which provides reined synergies.

DRAWN ARC : A PROFESSIONAL PROCESS

For Aluminium Dent-Pulling, drawn arc welding has several advantages as compared to capacitor discharge technology :

- Gas protection which prevents contamination of the weld
- Deep repair capabilities
- Closer Key itment for stronger pulling capabilities
- Reduction in post repair preparation
- Excellent Reproduction and reliability process
- No impact on the reverse side of the repaired panel.

GROUND BREAKING INNOVATION

The gun is equipped with a linear motor which is superior and unique in the market. Unprecedented advantages :

- Superior control of the welding cycle.
- Digital process control - no need for manual adjustments.
- 2 independently adjustable ground electrodes for better stability during the welding process.

DUST PROTECT

Included :

- Automatic gun with 2 Ground Electrodes
- Aluminium Keys consumables box 1,5 mm.
- Lifting rod

Ref. 057470

2 WELDING MODES

A digital interface provides intuitive and functional navigation between the welding modes :

- A synergic mode which provides factory pre-established programs for fast and easy settings.
- A manual mode for users who require complete control - this provides personalized settings for speciic use.
