

INDUCTION

HAND - DUCTION

Ref. 056923

The Hand-Duction is designed to heat and remove any mechanical part in a few seconds: e.g. seized bolts/nuts, screws...etc. It is especially recommended for technicians in the automotive, agricultural, industrial or construction sector.

AN ERGONOMIC TOOL...

Light, it weighs only 2.54 kg.

The gun shape makes it very easy to handle.

LED light at the tip to indicated the area that will be heated.

Easy-to-use, just plug it in and use it.

1000 W power, the Hand-Duction is also equipped with an air cooled circuit.

... WHICH SIGNIFICANTLY INCREASES PRODUCTIVITY

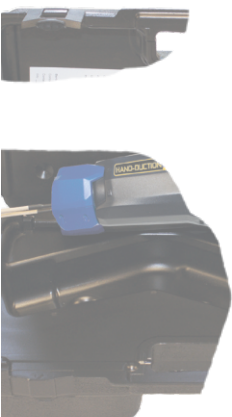

Immediate heating without flame on a specific area, it can be used close to cables, pipes, or other heat sensitive part avoiding the need to disassemble them.

Supplied with three inductors, it can fit any shape. Changing the inductor is very easy, via a lock / unlock mechanism.

Inductor locking and unlocking

SUPPLIED IN A PLASTIC CARRY CASE WITH 3 INDUCTORS

Coiled wire
Ø 22 mm

Braided wire
1 m

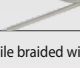

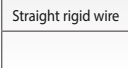

Straight rigid wire
584 mm

50 Hz	A	W	Freq. kHz	cm	kg	m
230 V 1~	5	1000	40-80	37	2.54	2

+ Options

The complete range of coiled inductors is also compatible with the Hand-Duction:

Coiled wire	
	Ø 18 mm 054806
	Ø 24 mm 054790
	Ø 30 mm 055469
Flexibile braided wire	
	800 mm 054813
Straight rigid wire	
	800 mm 054868
