

HESHBON HL-300X

30 TON Heavy Duty Scissor Lift

The dual-jack model of HL53X allows simultaneous front and rear wheel lifting. Ideal for professional alignment workshops handling high vehicle volumes.

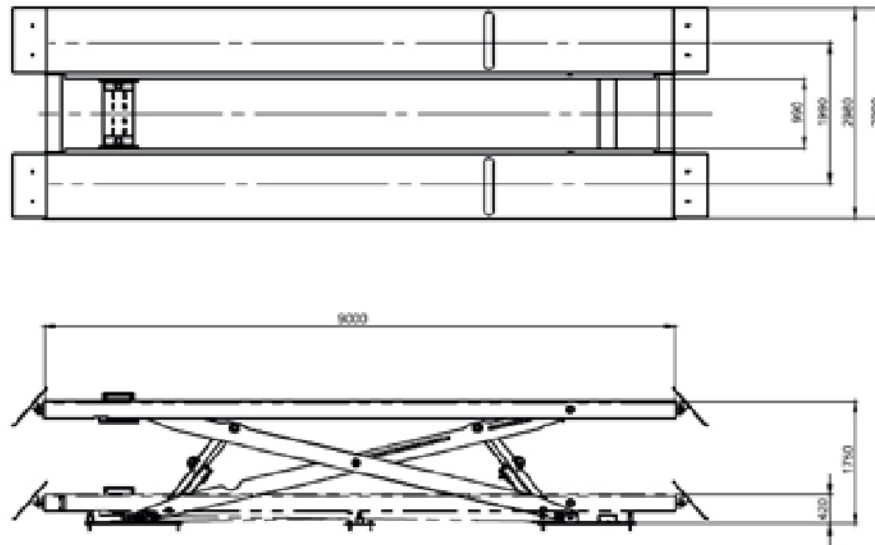

FEATURES

- Accurate synchronization by Master & Slave cylinder.
- Multi-level safety lock 4EA application.
- Locking proximity sensor applied to prevent misalignment of the main locking part during ascending and descending.
- Wired remote control applied for better work convenience.
- Improved safety with a scissor lift structure.
- Upper and lower rollers prevent foreign substances from entering equipment and minimize friction.
- Center rolling jack available. (OPTION)
